

Spinlock Deckvest Vito

datasheet

Deckvest VITO is the latest Spinlock inflatable lifejacket harness technology, based on our design work for the Volvo Ocean Race.

Features:

Striking design finish in durable rip stop fabric

- 170N buoyancy with Hammar® hydrostatic automatic inflator
- Structured fit allows easy donning with simple to adjust buckles
- Course and fine tune adjustment. Fit lifejacket to body size.
- Fine tune adjust each time for layers
- Added protection in high impact areas
- New style structured sprayhood to reduce the risk of secondary drowning
- Pylon Lifejacket Light™ – high intensity, water activated flashing LED Light. 23cm flexible antenna wand gives improved visibility above head & water
- Lume-On™ - Lifejacket bladder illumination lights included
- Wider 40mm leg strap with stowage
- Toggle attachment point for optional Chest Pack (DW-PCC)
- Optional Ocean Signal AIS MOB1 available to purchase as a stand-alone unit or supplied fitted integrated within a Deckvest

Harness Release System (HRS™)

The Deckvest VITO is a 170N lifejacket with integrated Deck safety Harness. All VITO Deckvests are built to allow them to be upgraded with the unique Spinlock Harness Release System (HRS™). This revolutionary system, evolved directly from the development work with the Volvo Ocean Race. HRS™ is a unique system that ensures a simple release from a safetyline, even when fully loaded. It is easily accessible with either hand, but significantly reduces the risk of an accidental snag or release.

Ready for Ocean Signal AIS beacon

Hammar® Hydrostatic Automatic Inflator

The Hammar® inflation system is activated by water pressure and will not inflate until the cap is approximately 10cm underwater.

This system is designed for use in more extreme conditions and extended offshore sailing. The benefit of the Hammar® system is that the jacket cannot accidentally inflate from being wet with rain and sea spray.

The unit has a single indicator to show if armed. Delayed inflation can be caused if full immersion of the firing head is delayed by buoyant foul weather clothing.

Approvals

The Deckvest LITE+ is approved to the following international standards:

- CE Approved
- ISO 12402-3 Lifejacket (170N)
- ISO 12401 Deck Harness
