

Aurora

250 / 290

The European built, Aurora Adventure V-250 built provides real value offering better features found in more expensive RIBs at an even better price. The Aurora Adventure V250 features a well shaped hull for good performance. Full flat internal floor. Built tough by a factory that makes military RIBs, the V250 makes a tough nuggety tender. The Aurora Adventure V-250 suits davits, hydraulic platforms and bow cradles. Found on many sailing and power craft. The Aurora Adventure V-250 makes a great little run about for the kids, keen angler or exploring the water ways.
