

# Mounting the bracket.

Below you will find the instructions to mount your Jonbuoy Product. Mount the Inflatable Danbuoy as so it faces outwards.

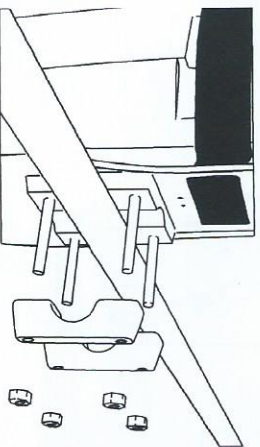

2. Remove the nuts from the rear bolts, then remove the black clamps.

1. Place the case flat on the front side.

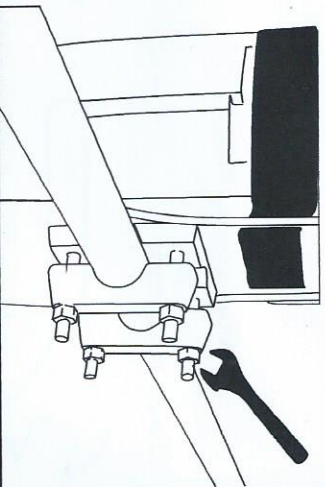

## A: Horizontal Mounting:

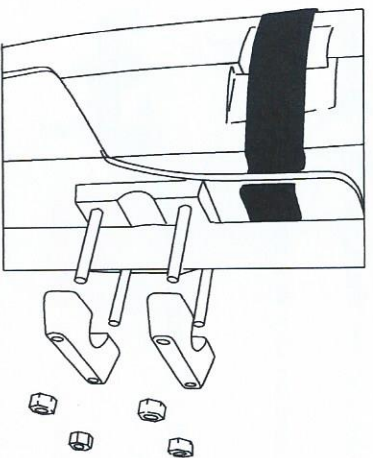

4a. Tighten the nyloc nuts until the bracket does not rotate when pushed.

3a. Lift the container by the handle, and place the bracket over the horizontal rail you wish to mount to. Make sure the black clamps are vertical. Slide the black clamps over the bolts and screw the nuts on by hand.

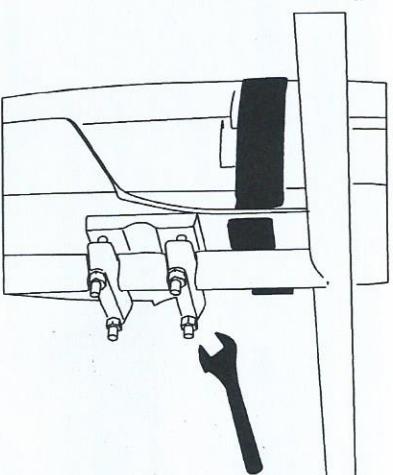

## B: Vertical Mounting:

4b. Tighten the nyloc nuts until the bracket does not rotate when pushed.

3b. Lift the container by the handle, and place the bracket over the horizontal rail you wish to mount to. Make sure the black clamps are horizontal. Slide the black clamps over the bolts and screw the nuts on by hand.

## Instructions for use:

Instructions for use are contained within the pull out located at the indicated position.

Pull out to reveal instructions, and push gently back in until it locks to retract.

Your service date is on the top of this pull-out.
