21 Rowland St,
Slacks Creek, Ph
(07) 3808 1988.

www.marinesafe.com.au

The Ocean ISO UltraLite liferaft utilizes carbon composite technology to achieve an amazing 30% weight reduction, compared to the traditional range of Ocean ISO liferafts. It also includes a high-tech inflation system to ensure an efficient inflation process.

This liferaft offers the huge benefits of a lightweight solution for yacht designers but most importantly larger liferafts are now easier to handle and deploy.

With a less than 24 hour survival pack a 10 man canister UltraLite weighs little more than a conventional 4 man valise liferaft.

KEY FEATURES

- Water ballast that exceeds ISO requirements: 6 & 8 man = 4 x 75L = 300L 10 & 12 man = 6 x 75L = 450L
- SOLAS approved lighting systems
- 3 year service interval
- Rain water collection
- Observation port
- Pictorial instructions printed on the raft
- Designed, tested and manufactured in the UK
- Up to 24 hour pack included
- Meets requirements under current MCA Code of Practice, Class XII and ISAF Special Regulations

BOARDING

- Ladder with aluminium tubes for better purchase, full knee scoop with grab handles mid way and at the top, hand over hand ladder extending internally.

With all the existing features of the Ocean ISO liferaft.
